Abstract (en)

[origin: WO2020136136A1] The present invention is directed to a method for providing a layer assembly for the stable introduction of a data page in a value document, to the layer assembly per se, and to a device for carrying out the proposed method and for providing the layer assembly. The present invention is also directed to a data page having the layer assembly, and to a value document in which the data page is introduced. Furthermore, proposed is a computer program product having control commands which carry out the proposed method and operate the proposed device.
