Abstract (en)

[origin: EP3909476A1] A support element for holding images or photographs, comprising a plate (1), made of glass or plastic material and formed by one or more layers, on which an image or photograph is shown or inserted, and a shaped base (2), fixed to the plate (1) at given positions by means of fixing means (3) which are inserted in respective seats (5, 6, 8) of the base (2) and of the plate (1); at least one portion (4, 7) of the base (2) is foldable and has seats (5, 8) for fixing with the plate (1), so that, by rotating and lifting the aforesaid portion (4, 7) of the base (2), a bend along a transversal direction of the portion (4, 7) of the base (2) is provided, so as to obtain a shape of said support element according to which, in use, the base (2) rests on a plane and the plate (1) is manually adjustable so as to be perpendicular or sloped at will with respect to the base (2).
