Abstract (en)
[origin: WO2020148210A1] A push-button switch assembly (1) with identification of switching states comprises a push-button switch (100) having an actuating head (110) for actuating the push-button switch and having a button guide (120). Furthermore, the push-button switch assembly (1) comprises an adapter device (200) for attaching the push-button switch (100) to a housing body (300). The button guide (120) has an integrally-colored material consisting of a plastic, the color of which differs from a color of the actuating head (110) and a color of the adapter device (200).
