Abstract (en)

[origin: WO2020151912A1] The invention relates to a drive system having a first transformer (1), a controller (2), and a converter (6) for feeding an electric motor, wherein the first transformer (1) supplies a DC voltage to the controller (2), a second transformer (7) is supplied with the DC voltage, and a first electronic signal system of the converter (6) supplies a DC voltage, said second transformer (7) having a galvanic isolation.
