Abstract (en)

[origin: WO2020161312A1] The present invention provides a combination comprising quercetagetin and gallic acid at a weight ratio from 65:1 to 1.2:1, wherein the gallic acid is in acid form, or in the form of a salt or an ester thereof. The invention also provides a food, animal feed, pharmaceutical, or cosmetic composition comprising the combination of the invention. It is also herein provided the use of the combination of the invention as an antioxidant in a food, animal feed, pharmaceutical, veterinarian, or cosmetic composition. The combination of the invention is highly useful for preventing the oxidation of compositions comprising lipids.
