Abstract (en)
[origin: WO2020160732A1] The invention relates to a protective helmet, comprising a helmet shell (1), which fits a human head and reaches as far as the forehead region thereof, and a transparent visor (2) mounted movably on the helmet shell (1), wherein an adapter device (3) for the attachment of helmet add-on parts is arranged on the helmet shell (1) at the forehead region. According to the invention, provision is made that a rail (4) leading in the direction of the back of the head, and designed for the mounting and guiding of the visor (2), is arranged on the adapter device (3).
