Abstract (en)
[origin: WO2020164769A1] The invention relates to a cosmetic product that is suitable for temporarily shaping keratin fibers and for which less fully synthetic polymers are used or fully synthetic polymers are completely dispensed with, while the styling properties are supposed to persist on a high level. This product contains - each relative to its weight - 60 to 90% by weight water; 1 to 5% by weight saccharose; 3 to 7% by weight hydroxypropyl methylcellulose and 0 to 3% by weight carboxymethyl starch.
