Abstract (en)  
A method of preparing a markable article (1) comprising the step of providing at least a first (10) colour-forming composition on a support (500) and a second (20) colour-forming composition on the support (500), the compositions capable of forming respectively a first (C1) and a second (C2) colour upon marking, in such a way that the compositions flow into each other thereby forming a colour-forming layer (100).
