Abstract (en)
[origin: US2020275766A1] A tool for cleaning a surface is provided. The tool includes a pole and a head member coupled to an end of the pole. A first plurality of bristles extend from a side of the head member opposite the pole. An extension member is separately coupled to an end of the head member. A second plurality of bristles extends from a side of the first extension member and positioned adjacent the first plurality of bristles, the second plurality of bristles including a first portion of bristles that extend on a first angle relative to an end surface of the extension member in a direction away from the pole.
