Abstract (en)
[origin: WO2020174174A1] The invention relates to a solid cosmetic composition comprising at least one lipophilic gelling agent chosen from sucrose polyesters, at least one fatty substance having a melting point between 25°C and 55°C, at least one oil, at least one colorant. The invention also relates to a stick comprising said composition, a method for preparing said composition and a method for making up the skin, mucous membranes or integuments, comprising the application of said composition.
