Abstract (en)

[origin: WO2020173884A1] The invention relates to a cover (100) for an upholstered part (50) of a vehicle seat (1), said cover (100) having at least one opening (130), in particular a through opening for a locking device (12) for a child seat (10), wherein an edge area (132, 134, 136, 138) of the cover (100) arranged around the at least one opening (130) is reinforced at least in sections with a reinforcing frame (140) made from a plastic material. The invention also relates to an upholstered part (50) for a vehicle seat (1), in particular a motor vehicle seat, having said type of covering (100) and to a vehicle seat (1) having at least one such upholstered part (50).
