Abstract (en)
[origin: WO2020178079A1] The invention relates to an operator control panel (12) for a domestic appliance (1), in particular for a domestic cooking appliance, with a front operator control means (15), a panel support (16), which supports the front operator control means (15), and a haptic actuator (19) which is coupled to the front operator control means (15) in order to emit a haptic signal as operational feedback to a user when the operator control panel (12) is operated with the aid of the front operator control means (15), wherein the panel support (16) has a cut-out (17) through which the haptic actuator (19) is guided to the front operator control means (15).
