Abstract (en)

[origin: EP3932637A1] A bamboo tableware processing method, comprising the following steps: S1, using a clamping member (4) to clamp a plurality of bamboo chips; S2, controlling a milling cutter (2) to rotate; and S3, moving the clamping member and/or the milling cutter to cut the plurality of bamboo chips by means of the milling cutter. Also provided is a bamboo tableware processing apparatus. According to the processing method, a plurality of bamboo chips is processed simultaneously, the processing efficiency is improved, and the quality of the product is improved. Moreover, a plurality of bamboo chips is subjected to high-speed milling and cutting at one time, burrs may not be generated at edges of the bamboo chips, and the step of polishing for burr removing is omitted.
