Abstract (en)
[origin: WO2020178577A1] A cutting system, at least one cutting tool, and a measurement system, wherein the measurement system is configured to determine an extent, progress and/or geometry of a cut formed by the cutting tool in a wall of a tubular or other member. Also disclosed are an associated method of using the cutting system, a computer program and processing apparatus for controlling the cutting system and a method for making, assembling or repairing the cutting system.
