Abstract (en)

[origin: WO2020188308A1] The invention relates to an interactive platform for interconnection between all the education systems in the world. It is based on the use of elements that are known in the field of computer science: - Web and mobile applications - XELTAB electronic board - Devices for viewing all the participants of the educational systems taken into consideration by the web and mobile application and the XELTAB - Simultaneous translation device. The invention works by implementing connection interfaces represented by boards that appear in the description.
