Abstract (en)

[origin: WO2020202224A1] The present invention provides a new method, system and device to transport and treat or prepare food items, such as fish, for further processing. Furthermore, the new system also provides a solution for reducing the use of processing liquid or refrigerated sea water (RSW) or food processing or transfer fluid in order to reduce the environmental footprint comprising a water footprint and a carbon footprint of a food product.
