Abstract (en)
[origin: WO2020201130A1] The present invention relates to a kneading or mixing machine (1) comprising: a housing (3) with opposite side walls (5), a motor (2) in said housing (3) for driving a kneading or mixing tool, a safety shield (4a) mounted to bearings (50), for turning about an axis (A), said safety shield (4a) being adapted to at least partly shield said tool when the safety shield (4a) is turned to a shielding position, said safety shield (4a) including a pair of arms (16), characterised in each arm (16) having a head (16a) at a free end thereof, a central portion (51) of each bearing (50) receiving said head (16a) to allow for said turning, and said central portion (51) of each bearing (50) communicating with an entry slit (52) configured for insertion of said head (16a) into said central portion (51) in a direction transverse to said axis (A).
