Abstract (en)
[origin: WO2020201064A1] The present invention relates to a composition for coating keratin fibres, in the form of a wax-in-water emulsion comprising, in a first continuous aqueous phase, at least one legume starch having an amylose content greater than or equal to 30%, at least one plasticiser chosen among the polyols, at least one wax, at least one emulsifier and at least one colouring agent. The invention also relates to the use of such a composition in order to provide keratin fibres, in particular eyelashes, with a lengthening and curling effect.
