Abstract (en)

[origin: WO2020200895A1] The invention relates to an identification, value or security document (100), comprising a main body (102), which has a surface (104, 106), onto or into which an inscription field (108) is applied, which is designed to accept and/or absorb a permanent colorant when said colorant is applied to the inscription field (108). The inscription field (108) comprises or consists of a layer (112) of a coating that can be inscribed or written on with the colorant. The invention also relates to a method and a device (300) for producing the identification, value or security document (100).
