Abstract (en)

The invention relates to an assembly for use in the manufacture of gable top containers being well recyclable, which can be applied in the food industry and more particular in the production of packaging for liquid, beverage or other goods. The assembly for use in the manufacturing of a gable top containers consists of a blank (1) and a pouch (2). The pouch (2) is adhered to the blank (1) in heat sealing dots, which are applied in equal intervals on the first side (A) of the blank (1). The blank 1 is further coated with adhesive in heat sealing layers (21, 22) on the first side (A) and on the second side (B) of the blank (1).
