Abstract (en)
[origin: WO2020212131A1] The aim of the invention is to produce a hydroxyapatite which can be used in the food sector without reservation. The invention provides a hydroxyapatite powder which is composed of primary particles, wherein the median of the primary particles from which the powder is made is $> 0.10 \mu\text{m}$, the specific surface area of the hydroxyapatite powder is $> 10 \text{ m}^2/\text{g}$, and the bulk density is $> 550 \text{ g/l}$. The invention additionally relates to a method with which such a hydroxyapatite can be obtained.
