Abstract (en)

[origin: EP3955134A1] An information processing system includes: a user information accumulation unit that accumulates information regarding a user on a basis of an action of the user; a specifying unit that specifies information corresponding to sensitive information among the accumulated information as corresponding to the sensitive information; and a disclosure control unit that controls a disclosure mode of the information corresponding to the sensitive information in a case where the information corresponding to the sensitive information is disclosed to a third party other than the user.
