Abstract (en)

[origin: WO2020212234A1] The invention relates to a decorated plastic part (1) and to a method for producing a decorated plastic part, having the steps of: • - providing a film (10), for example comprising a carrier layer (11) and a decorative layer (12), • - applying at least one plastic material (20) onto at least some regions of the film during a processing operation, and • - introducing imperfections (61, 62) into the film such that the imperfections can be optically detected, in particular through the plastic material, after the processing operation, in particular by means of a depth effect, 3D effect, and/or transparency effect.
