Abstract (en)

[origin: WO2020212138A1] The invention relates to the use of a thermoplastic elastomer (TPE) to produce a flooring surface, particularly a running track flooring surface or impact-absorbing flooring surface, and particularly a running track flooring surface or impact-absorbing flooring surface for sports grounds, playgrounds and leisure areas. The invention also relates to a flooring surface, particularly a running track flooring surface or impact-absorbing flooring surface, and particularly a running track flooring surface or impact-absorbing flooring surface for sports grounds, playgrounds and leisure areas, wherein said flooring surface comprises a TPE.
