Abstract (en)

[origin: WO2020211901A1] The invention relates to a method for scanning microscope slides using a device with at least one feed unit for microscope slide holders, at least two microscope slide scanners, at least one depositing device, and at least one industrial robot, having the steps of: a) loading the feed unit with at least one microscope slide holder, which holds at least one microscope slide, b) removing the microscope slide from the at least one microscope slide holder, c) inserting the removed microscope slide into one of the microscope slide scanners, d) removing the microscope slide from one of the microscope slide scanners, and e) depositing the microscope slide in the depositing device, wherein steps b) to e) are carried out by at least one industrial robot.
