Abstract (en)
[origin: WO2020222091A1] A filler for introducing a liquid into a container comprising a rotating carousel (2) comprising a plurality of filling stations (20) in turn comprising a first filling station (21); the first filling station (21) in turn comprising: - a liquid dispensing line comprising a first liquid dispensing nozzle (210) for dispensing liquid into a container; - a dummy bottle (30) for receiving a sanitising fluid dispensable from the first nozzle (210) and used for sanitising at least a part of the liquid dispensing line; - lowering/raising means (4) for lowering/raising the dummy bottle (30); - movement means (5) for moving the dummy bottle (30) around a vertical rotation axis (31) to move the dummy bottle (30) between a first configuration in which the dummy bottle (30) is not located below the first nozzle (210) and a second configuration in which the dummy bottle (30) is located below the first nozzle (210).
