Abstract (en)
The present application discloses a shelf assembly and a shower room. The shelf assembly includes a shelf and a fixing seat. The shelf includes a tray and a clamping plate provided on the tray, the clamping plate is provided with clamping holes. The fixing seat includes a fixing plate and clamping teeth provided on the fixing plate. The clamping teeth are configured to pass through the clamping holes and to snap with the clamping plate. In the shelf assembly and the shower room provided by the application, the shelf is hung on the fixing seat by passing the clamping teeth of the fixing seat through the clamping holes on the clamping plate and snapping the clamping teeth with the clamping plate. Compared with the way that the shelf is fixed on the wallboard by screws, it does not need disassembling and assembling tools such as a screwdriver or a hexagonal wrench, and is easier to disassemble and assemble the shelf, thereby improving the convenience of cleaning the shelf.
