Abstract (en)
[origin: WO2020225076A1] The invention relates to a portable storage battery (1), to an associated server device (11) and to corresponding operating methods (21). The storage battery (1) has a communication module (3) for communicating with the server device (11) and with a small vehicle (18), which can be operated by means of the storage battery (1). The storage battery (1) is used as a key for enabling driving operation of the small vehicle (18). For this purpose, the storage battery (1) transmits, in response to a corresponding authorization signal received from the server device (11), a corresponding enabling signal to the small vehicle (18).
