Abstract (en)

[origin: WO2020229299A1] The invention relates to a package (10) for packaging consumables (13) for use in a processing device, in particular a woodworking device for processing plate-shaped workpieces, said package comprising: a main body (11) which is formed from at least one packaging material to be used once or several times, the main body (11) delimiting at least part of a receiving region (12) for receiving and dispensing the consumables (13), and at least part of the receiving region (12) being surrounded by the packaging material; a dispensing device (20) which enables access to the consumables (13) which can be received in the receiving area (12); and at least one identification device (18) for identifying properties of the packaged consumables (13), wherein at least the main body (11) is designed to be supplied to the processing device together with the consumables (13).
