Abstract (en)

[origin: WO2020225818A1] Garment and clothes that are unravel-free and roll-free. A garment includes a particular garment-region made of knitted fabric. A majority of threads of the knitted fabric are yarns other than a thermally-fused thermoplastic yarn, such as polyester, nylon, polypropylene, cellulose, polyurethane. At least one thread of the knitted fabric is a thermally-fused thermoplastic yarn that is knitted integrally in the knitted fabric and is located within N millimeters from an edge or an opening of the garment, wherein N is in the range of 0 to 10 millimeters. The edge or the opening of the garment-region is unravel free and is roll-free, due to inclusion of, or proximity to, the thermally-fused thermoplastic yarn in the knitted fabric.
