Abstract (en)

[origin: KR20210020987A] The present invention provides media user interfaces including user interfaces to capture media (for example, capture a photograph and record a video), display media (for example, display a photograph and play a video), edit media (for example, modify a photograph and modify a video), access media control units or settings (for example, access control units or settings for capturing photographs or videos to capture videos), and automatically adjust media (for example, automatically modify a photograph and automatically modify a video).
