Abstract (en)

[origin: CN114162471A] The invention relates to a system and a method for packaging a medical plug consisting of a cap and a plug. A packaging system (100) for a medical plug formed by a cap (51) mounted on a plug (52), the packaging system (100) comprising: a container (10); at least one tray (20) provided with cavities (21), each cavity receiving a medical plug (50) arranged such that the cap (51) together with an upper surface (20a) of the tray (20) defines a closed compartment (53) individually isolating the plug (52), the tray (20) being placed in the container (10); and a porous cover (40) which is sealed on the container (10). The invention also relates to a packaging method comprising the following steps: providing a container (10); arranging the tray (20) in the container (10); arranging at least one stopper (50) in the cavity (21); sealing the porous lid (40) on the container (10); the container (10) is placed in at least one sealed bag and the bag is evacuated.
