Abstract (en)

[origin: WO2020233968A1] The invention relates to a drawer (1) with a device for securing a movable rail (20) of a runner system to the drawer (1), comprising a support (5) which is arranged on a side wall (2) and on which a U-shaped holder (6) is provided, wherein a front end section of the movable rail (20) can be introduced into the U-shaped holder (6), and the movable rail (20) can be locked onto the support (5) and/or the holder (6) via at least one catch (8, 8'), which engages through at least one opening (21, 22) in the movable rail (20). The drawer (1) has a front panel (3), and a support surface (14) of the holder (6) is directly or indirectly supported against the front panel (3). The invention additionally relates to a method for installing a drawer on a movable rail of a runner system.
