Abstract (en)
[origin: WO2020229101A1] The present invention relates to a method for dyeing keratinous material, in particular human hair, comprising the following steps: - applying an agent (a) to the keratinous material, said agent (a) containing: (a1) at least one organic silicon compound from the group comprising silanes with one, two or three silicon atoms; and (a2) at least one sulfated and/or sulfonated fatty acid ester; and - applying an agent (b) to the keratinous material, said agent (b) containing: (b1) at least one sealing reagent and (b2) at least one first chromophoric compound from the group comprising pigments and/or direct dyes.
