Abstract (en)

[origin: WO2020229269A1] The invention relates to a dosing unit (18, 118, 218) for an automatic dosing system of a water-bearing household appliance, in particular a dishwasher or washing machine, configured for dosing at least one of a plurality of detergent tablets stored in a storage cartridge (30, 130, 230), comprising a dosing device (20, 120, 220) configured for picking the at least one detergent tablet from the plurality and releasing the at least one detergent tablet by temporarily switching by a predefined switching mechanism from a closed state to a release state, wherein the dosing device (20, 120, 220) comprises a safety portion (24, 124, 224) for preventing an unwanted switching. Moreover also a water-bearing household appliance comprising the dosing unit and a method of dosing is disclosed.
