Abstract (en)
[origin: WO2020229562A1] The present invention relates to a modular photovoltaic system. In particular, the invention relates to a modular photovoltaic system which is suitable for use in the roofing of garage roofs and carports. In addition, the present invention relates to the use of the modular photovoltaic system for the purpose of producing a carport or a garage roof with an energy-generating function, and also to a carport or a garage roof comprising the modular photovoltaic system.
