Abstract (en)

[origin: WO2020234125A1] The invention concerns a container (1) made from plastic material comprising a body (10) extending along a central axis (C) between an opening (11) and a bottom (12), the body (10) having a boxed gripping indentation (2) extending parallel to the central axis (C) over a predetermined height (H), the boxed gripping indentation (2) being the only boxed indentation on the body (10) over the predetermined height (H), and having a median line (20) of maximum indentation, the median line (20) of maximum indentation lying in a diametral plane (P).
