Abstract (en)
[origin: WO2020234663A1] Described herein is a package (10) for a foodstuff product, in particular a confectionery product, comprising: - an outer wrapper (2) that envelops said product (P) completely so as to define a closed chamber (C) containing said product; and - a support (4), set on which is said product (P), which is housed within said closed chamber (C) together with said product (P). The package is characterised in that said support (4) comprises a base (4I) on which said product rests, and lateral walls (4II, 4III, 4IV, 4V) that surround said product, wherein said lateral walls include a pair of lateral walls (4II, 4IV) that are set in positions opposed to one another with respect to said product (P) and have a height such as to project above said product (P).
