Abstract (en)
[origin: WO2020236099A1] The invention relates to a furniture fitting (10) having a fastening section (51, 53) which is used for connection to a furniture carcass (110), wherein: a kinematic arrangement (30) is connected indirectly or directly to the fastening section (51, 53); a mounting piece (80) is provided, which has a fitting side (81) facing the fastening section (51, 53) and a furniture fastening side (81.3) facing away from the fitting side (81); the fastening section (51, 53) has at least one fixing element (55), which interacts, in an mounting position, with a counter element (85) of the mounting piece (80) to form an interlocking and separable connection transverse to the furniture fastening side (81.3); a control element (60) is provided, which can be adjusted between a release position and a locking position; and the control element (60) bears on a support section (52) in the locking position to secure the mounting position. A furniture fitting of this kind can easily be connected to a furniture carcass and mount same, even given the compact size of said fitting.
