Abstract (en)
[origin: WO2020234806A1] The present disclosure relates to an ionogel composition comprising at least one ionic liquid and at least one unprotected tripeptide as a gelator. Discs, films, fibers, spheres, cubes, meshes, channels or patterned structures comprising the ionogel composition are also encompassed. The present disclosure also relates to an article comprising the ionogel composition, the use of the ionogel composition and a method to prepare said ionogel composition.
