Abstract (en)
A bulldozer that is intended for spreading and levelling road surface material over which an asphalt layer is further intended to be applied, which bulldozer is formed of a frame (1, 2) that is articulated in the middle and of bearing chain track wheels (3) and a front bulldozer blade (4a, 4b). The bulldozer blade (4a, 4b) has three parts, a body blade (5) and side blades (6) folding forward substantially to an angle of 90° on both sides, whereby a U-shaped trough (7) is formed in front of the bulldozer.
