Abstract (en)

[origin: WO2020237329A1] The present invention relates to a new cosmetic composition comprising light green clay and a probiotic-derived active ingredient and having high SPF values. The cosmetic formulation has enhanced water-resistance and anti-oiliness effect when compared to cosmetic compositions of the prior art. The cosmetic composition of the present invention also presents a soft sensorial to the skin and dry touch after application. The present invention is also related to the use of said cosmetic composition.
