Abstract (en)

[origin: WO2020245134A1] Shelving (200) for soilless cultivation, comprising at least one first row (201) and one second row (201), each row (201) comprising at least one cultivation unit (300), each cultivation unit (300) comprising at least one cultivation compartment (307), the shelving further comprising a device (202) for moving the two rows (201) with respect to one another in such a way that the shelving (200) can adopt two configurations: - an open configuration in which the growing media (308) are accessible from an aisle (203) between the two rows (201); - a closed configuration in which the cultivation compartments (307) form at least one cultivation chamber (204), the shelving (200) further comprising a sealing system (205) that limits the exchanges of air between the cultivation chamber (204) of the shelving (200) in the closed integration and the outside.
