Abstract (en)

[origin: WO2020249403A1] 1. The invention relates to a metering container (10) for gel-like or pasty products. 2.1 Such a metering container having a container outlet (2), which is closed by a seal prior to its first use, and a removable closing assembly (3) for opening or closing the container outlet is known. 2.2 The invention is characterized in that the closing assembly comprises an application device (4) having an application surface (5) and a product passage opening (6) in the application surface, and a closing cover (7) that covers the application device (4) when in its closed position. 2.3 Use for metering medical wound gels.
