Abstract (en)

[origin: EP3985790A1] The present disclosure provides a dielectric single cavity and a dielectric waveguide filter. The dielectric single cavity comprises: a dielectric single cavity body, comprising an outer housing and an inner housing provided in the outer housing, a cavity being formed between the outer housing and the inner housing, and the inner housing is provided with a metal coupling hole for inserting and coupling a PIN; and a first relief hole, the first relief hole being provided on the outer housing and surrounding the metal coupling hole.
