Abstract (en)

[origin: US2020397113A1] A handheld beauty tool includes a handle, a coupling on the handle, and a head connectable with the coupling. In an embodiment the handheld beauty tool can include an actuator movable with respect to the coupling. In another embodiment, the handheld beauty tool can include a biasing member cooperating with the coupling and the head. In the embodiment including the actuator, the biasing member may or may not be included. Also, in the embodiment including the biasing member, the actuator may or may not be included.
