Abstract (en)

[origin: WO2020261042A1] A package 100 having a plurality of compartments. The package comprising a back wall 102, two opposing side walls 104, two opposing front wall portions 106 and a separator sheet 200. The back wall, the two opposing side walls, and the two opposing front wall portions define a package volume. The separator sheet is configured to provide a divider between two adjacent compartments of the package. The separator sheet comprising a floor panel 202 having an extension along a first transversal direction and a second transversal direction, a first front wall panel 204 connected to the floor panel, and a second front wall panel 208 connected to the first front wall panel.
