Abstract (en)
[origin: EP3987991A1] Some embodiments of the present invention provide a cleaning apparatus (10) and a vacuum cleaner (1). The vacuum cleaner (1) has the cleaning apparatus (10). The cleaning apparatus (10) includes a housing (100) and a cleaning assembly (200). The cleaning assembly (200) is rotatably provided at the housing (100). The cleaning assembly (200) includes a first cleaning member (210) and a second cleaning member (220) arranged in parallel to the first cleaning member (210). The cleaning assembly (200) can be operated to rotate so as to selectively move the first cleaning member (210) or the second cleaning member (220) to a cleaning position. When the floor cleaning member needs to be switched from the first cleaning member (210) to the second cleaning member (220), the cleaning assembly (200) can be operated to rotate to a certain angle to move the second cleaning member (220) to the cleaning position. The invention is convenient to operate.
