Abstract (en)

The present invention relates to a moistening system for paper sheets, specifically applied to machines for making corrugated cardboard. In particular, the invention relates to a moistening system (100) for paper sheets or strips in a cardboard making machine, comprising a frame (8) that supports a plurality of nozzles (9) for spraying water, characterized in that it comprises a microperforated plate (12) comprising holes (19) for distributing atomized water and micro-holes (20) for dispensing a ventilation air flow.
