Abstract (en)
[origin: CN114277646A] The road finishing machine (1) comprises a material hopper (7) for receiving paving material, a screed (11) for compacting the paving material, and a main console (13) providing an operating position for an operator on the road finishing machine (1). The main console (13) comprises a floor area (17). The road finishing machine (1) comprises a lighting unit (31). The lighting unit (31) is not more than 140 cm higher than a floor area (17) of the main console (13) with respect to the vertical direction. The lighting unit (31) is arranged such that at least 60% of the light output emitted by the lighting unit (31) during operation falls on a floor area (17) of the main console (13).
